

IELTS Speaking Band 9 Full Dialogue – University Club Enquiry

Scenario: Orientation week, new international student enquiring about university clubs.

Speaker A: New university student (candidate, asks all 4 points: types, times, benefits, costs)

Speaker B: Student Union representative (examiner, follows the official cue notes exactly)

A (Student, Band 9 natural opening): Hi there, I'm a new student here this semester. I was wondering if you could tell me a bit about the different clubs and associations available at the university?

B (SU Rep): Sure, we have a variety of clubs for new students. The two most popular ones for freshers are the Overseas Students Club and the Chess Club, both open to all students regardless of experience or background.

A (Student – ask meeting times): That's great to hear. Could I also ask when these clubs usually hold their weekly meetings?

B (SU Rep): Absolutely. The Overseas Students Club meets once a week at the Student Centre, which is located near the library. Similarly, the Chess Club also runs weekly sessions, and they take place in the campus Common Room.

A (Student – ask benefits, fluent follow-up): Thank you. I'm quite curious about what benefits joining these clubs can offer for new students like me?

B (SU Rep): Well, the main advantage of the Overseas Students Club is that it's a fantastic way to meet and socialise with other students, especially international freshers, so it's perfect for settling into university life. As for the Chess Club, it's open to all skill levels, so complete beginners and experienced players are all welcome. It's a really relaxed, inclusive environment.

A (Student – ask costs, final clear question): That sounds really lovely. Just to clarify, are there any fees or costs involved in joining either of these clubs?

B (SU Rep): They do differ slightly. The Chess Club is completely free of charge for all members. For the Overseas Students Club, there are no mandatory fees, though voluntary financial contributions are always welcome to support their events and activities.

A (Band 9 natural closing): That's extremely helpful, thank you so much for explaining everything clearly!

B (SU Rep): You're very welcome! Hope you enjoy your time joining the clubs.
